

Gigaset

DECT IP base for mobile communication in small to medium businesses.

N510 IP PRO

The N510 IP PRO is the DECT IP base station for small to medium businesses that supports all available Gigaset DECT handsets. Users benefit from flexible communication with exceptional sound quality. Professional features such as corporate directory access, online directories and email notification add efficiency to the workday. Wireless connectivity enables freedom of movement and multi-tasking convenience. The N510 IP PRO is compatible with over 230 VoIP providers and all common PBX systems. Zero-touch installation with Gigaset T300 PRO and T500 PRO PBX systems ensures quick and easy configuration.

- Desktop or wall mountable
- Energy-saving⁴ ECO features
- Integrated power over Ethernet

DECT technology.

Interference-free DECT technology provides benefits in terms of range, standby time and speech quality.

SIP cordless phone technology.

Proven and optimized SIP technology guarantees high compatibility (230+ providers worldwide).

Business productivity.

With access to a local network directory and public online directories, managing contacts is easy. Users can view online information and receive text messages instantly via the email reader.

Ease of use.

The user interface featured in the new generation of Gigaset handsets is consumer-friendly and visually attractive, making communication as easy as possible.

Flexible deployment.

With the wide selection of compatible Gigaset handsets, every user will find a handset to satisfy his or her needs. Compatibility with a broad range of IP providers and PBX systems enables flexible combinations.

Growing with your needs.

The N510 IP PRO is expandable by up to 6 handsets. It can also be combined with up to 3 additional base stations for an increased talking range.

N510 IP PRO

Professional HD sound.

Exceptional HDSP™¹ sound adds business efficiency: superb and clear wideband audio technology makes calls sound like face-to-face meetings.

Cutting-edge Gigaset handsets.

Users can select from a broad range of compatible Gigaset handsets according to their business requirements. Gigaset handsets are convenient, uncomplicated and reliable. Cutting-edge technology, brilliant sound and innovative features make them a pleasure to operate, and thorough tests have proven their endurance. Designed in contemporary, elegant style, they perfectly suit business environments. ECO DECT reduces power consumption and DECT transmission, allowing businesses to maintain a commitment to the environment.

Technical data:

- Other handsets with at least minimum GAP standard

Gigaset pro system components

- Recommended Gigaset DECT handsets:
 - S79H
 - SL400H
 - C59H
 - E49H
 - SL78H
- IP PBX systems:
 - Gigaset T300 PRO
 - Gigaset T500 PRO

www.gigaset.com/pro

1 Dependent on country/network/provider

2 Dependent on registered handset

3 When used with a Gigaset PBX system

4 Compared to conventional Gigaset base stations

5 Only with compatible handsets such as the Gigaset C59H, S79H, SL400H and SL78H

6 Planned for a later software update release

7 For all registered handsets – compared to when ECO Mode is not activated and to Gigaset's conventional base stations

8 When handset is idle or charging and all registered handsets support ECO Mode Plus

It's your best choice.
