

Elastix[®] UC46

Expansion Module

Elastix UC46 is an expansion module for Elastix Color IP Phones (UC842, UC862). It expands the functional capability of your VoIP phone to a whole new level. Two page views allow 40 programmable keys that work as BLF, Speed dial, call park, pick up...

A new level of communication for your business

The expansion module Elastix UC46 is supported by the Elastix Color IP Phones UC842 and UC862. The module includes 20 bicolor keys and 2 extension arrow keys to switch page (allowing each module Elastix UC46 support up to 40 contacts / extensions) and offering a large LCD screen with backlight for easy viewing.

Each contact can be assigned with an image showed on the display next to the corresponding key, allowing quick and easy identification of the user.

Connect up to 6 modules Elastix UC46 to compatible Elastix phones, for a total of 240 phone contacts / extensions. This module supports functions like:

- Call waiting, parking, pick up
- Redial, Call Return, Call Forwarding, Call Transfer
- Caller ID display, DND, Conference
- Speed Dial, Voicemail, Message
- BLF, shared line, public and private hold.

The Elastix UC46 module is the ideal solution for users who attend a high volume of calls, including executives and receptionists
